Advertisements Jim Hightower of the Texas AFL-CIO announced on Monday that teachers across the state are on strike. Hightower said, "the Texas AFL-CIO is disgusted that Republican Governor Rick Perry has declared a war on public education and that he is trying to ram a massive voucher system down the throat of our children. Perry is out of touch with everyday Texans. He is telling our children that they cannot afford a good public education, but there is a war on education going on and it is a political war. The majority of Texas children are poor and can not afford a private school. We have a major war going on in our schools across the state." The fact that teachers are on strike in Texas proves that Perry is politically isolated. Perry is pretending to do something about the state budget deficit, but is using the money to attack public education. The Texas Department of Health says the state is \$27 billion in debt, but Perry cannot tell the teachers in his state what to teach their children. The money that he is wasting on vouchers for private and religious schools, would go a long way toward paying down this massive debt he has created. Advertisements Perry's voucher plan is illegal in Florida, and he has already sued North Carolina for the same thing. The only state where vouchers are allowed is Washington. Where are the right wingers who are always screaming about government spending on education and sending more money to the poor? They are using the money to cover up what is one of the biggest lies in the history of conservative talk. This is an election year, and Perry is trying to get as many votes as he can. He is pretending to be doing something for the children, but he is using their school money to line the pockets of his wealthy friends. Hightower points out that the Republicans are obsessed with getting money from poor and black communities. The right wingers treat every minority like they are children. They will not give them equal treatment, and expect these children to get an education that will help them to get decent jobs in the future. The Republican policies take children out of public schools, and funnel their money into private and religious schools that do not have to meet the same standards as public schools. Some of the money that the Governor is using to cut taxes for his rich friends will not even pay the tuition at these schools. The Republicans are going to get votes by playing on the hate for illegal aliens and minority citizens. The

Complementary and alternative medicine (CAM) has been a part of medical practice for centuries, and it has gained increasing attention in modern medicine. Also, it is thought that attitudes and beliefs of medical students reflect the views of the future physicians, and there are conflicting data regarding the attitudes toward CAM among medical students. The purpose of this study was to determine the attitudes and beliefs regarding CAM among medical students in Turkey. This study was conducted at the Medical Faculty of Erzurum Atatürk University. The questionnaire included 36 questions that consisted of CAM questions that varied in content. A total of 250 medical students completed the questionnaire, and the students were divided into three groups according to their curriculum (4th, 5th, and 6th year medical students). The questionnaire was anonymous, and students were not aware that the answers were to be pooled and used
